

# how to customize

## Jacquard

Jacquard is a decoration method that actually knits your design into the sock as it's being made. It's great for showing off intricate patterns and designs, and the unique construction makes your branding a part of the socks DNA!

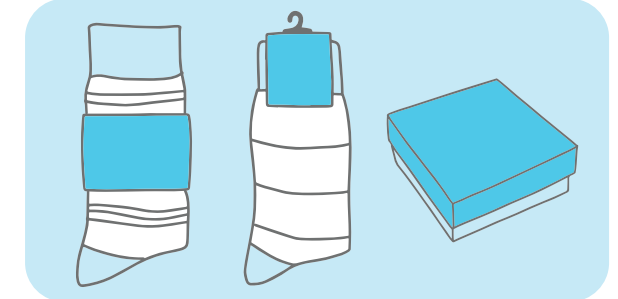

## Dye Sublimation

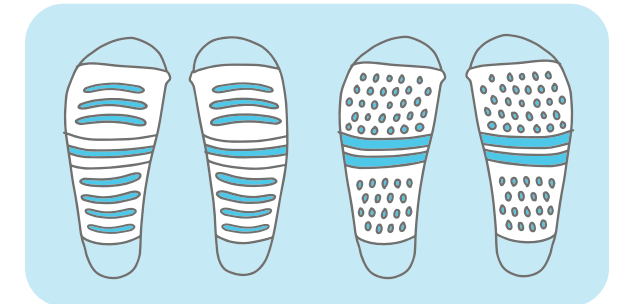

Full Color Dye Sublimation is a decoration method that prints your design onto the sock, so you can print photo-realistic images and full color artwork to make your perfect pair.

## Custom Add-ons

**Retail-style hang tags & wrap tags, and giftable sock boxes** not only give your socks a high-end finished look, they provide extra imprint area for your branding or messaging!

**Rubber Grips** are Pantone-matched and custom-made with your branding and added to the bottom of your sock for an instant upgrade! (available for a selection of socks)

**Woven Tags** are a great way to add a subtle branded touch to a sophisticated pair of socks, a popular choice for corporate gifting.
