TWILL SCARVES DECORATION GUIDE

Our new Twill Scarves are a great multi-use product for displaying your unique branding with vibrant designs!

BASE PRODUCT

The base product decoration includes one Pantone matched color on a white background.

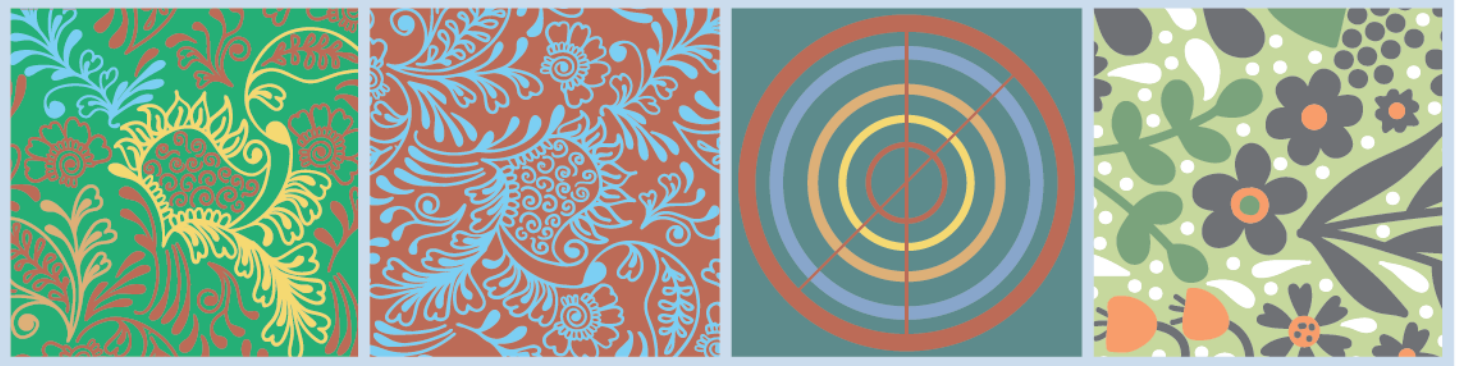

As long as your design meets our standard minimums, you won't have **any issues with artwork limitations!**

PRINTING LIMITATIONS

Specific overlapping colors can lead to color bleeds that look like outlines around design elements.

Original Vector Artwork

Printed Artwork

Let us help you avoid these issues!

Our Art Gurus are here to set you up for success by following the guidelines on the next few pages.

PRO TIP #1

You can adjust your design with a white or dark stroke between overlapping colors

Original Design

The overlapping reds, blues and yellows in these designs are going bleed into each other

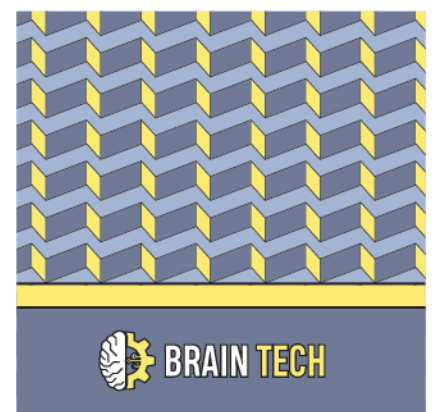

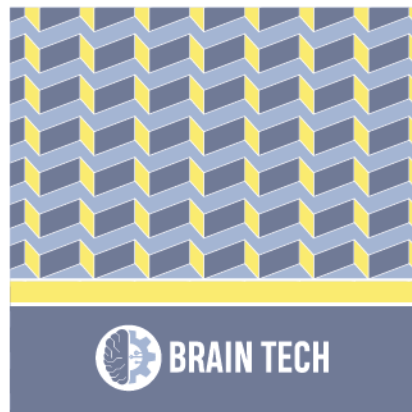

Modified Designs

Change to a white background, or add a white outline between any overlapping colors

Change to a dark background, or add a dark stroke over any overlapping colors

PRO TIP #2

If you need to overlap colors, keep them within the same part of the color wheel

Designing within the same part of the color wheel will reduce the likelihood of color overlap creating an obvious bleed effect.
